

Newly created project with wrong e2e lint configuration in angular.json #891

[New issue](#)**Closed**

running lint script on a newly created project gives the following error:

```
Linting "my-app-e2e"...  
error TS5058: The specified path does not exist: 'C:\MyWorkspace\e2e\tssconfig.e2e.json'.
```

the problem is in the generated angular.json e2e lint config. It shouldn't be looking for the e2e folder.

```
"my-app-e2e": {  
  "root": "apps/my-app-e2e",  
  "projectType": "application",  
  "prefix": "",  
  "architect": {  
    "e2e": {  
      "builder": "@nrwl/builders:cypress",  
      "options": {  
        "cypressConfig": "apps/my-app-e2e/cypress.json",  
        "tsConfig": "apps/my-app-e2e/tssconfig.e2e.json",  
        "devServerTarget": "my-app:serve"  
      },  
      "configurations": {  
        "production": {  
          "devServerTarget": "my-app:serve:production"  
        }  
      }  
    }  
  }  
}
```

```
options: {  
  - "tsConfig": "e2e/tsconfig.e2e.json",  
  + "tsConfig": "apps/my-app-e2e/tsconfig.e2e.json",  
  "exclude": [  
    "**/node_modules/**"  
  ]  
}  
}  
}  
}
```

steps to reproduce:

```
npm i -g @angular/cli@7.0.4 @nrwl/schematics@7.0.2  
create-nx-workspace MyWorkspace --npmScope MyNpmScope --packageManager npm  
ng g application MyApp --directory "" --style scss --routing --unitTestRunner jest --e2eTestRunner  
npm run lint
```
