I am not sure what I am doing wrong:

I am following the tutorial here, but I keep getting the following error:

> ENOENT: no such file or directory, open 'C:\Users\andrewkp\Documents\VSCode\Projects\node_modules\jquery\dist\jquery.min.js'
> Error: ENOENT: no such file or directory, open
> 'C:\Users\andrewkp\Documents\VSCode\Projects\node_modules\jquery\dist\jquery.min.js'

Here is my angular.json file.

```
{
  "$schema": "./node_modules/@angular/cli/lib/config/schema.json",
  "version": 1,
  "newProjectRoot": "projects",
  "projects": {
    "MyProjectName": {
      "root": "",
      "sourceRoot": "src",

1 Answer

After reviewing my error carefully:

23

C:\Users\andrewkp\Documents\VSCode\Projects\node_modules\jquery\dist\jquery.min.js'

I noticed that I was navigating to far back, as I can see above the path it is trying to read from is totally wrong, not including my project name at all.

The fix was to change:

```
"styles": [
  "src/styles.css",
  "../node_modules/bootstrap/dist/css/bootstrap.min.css"
],
"scripts": [
  "../node_modules/jquery/dist/jquery.min.js",
  "../node_modules/bootstrap/dist/js/bootstrap.min.js"
]
```

To:

```
        "node_modules/bootstrap/dist/js/bootstrap.min.js"
    ]
```

1   Thanks man !!!! – Hameed Basha Jul 29 '18 at 13:14

Exactly the same happened to me, hard to spot until I found your post – CSL Sep 17 '18 at 11:38

thanks man. it happens angular 6 . – Kumaresan Perumal Sep 18 '18 at 7:31

Awesome!Thank you for this! – skiabox Feb 9 at 23:13
