Did you run `npm install` ? — Amit Chigadani Nov 15 '18 at 6:48

yes.I did upgrade angular 2 to 7. — Raj Nov 15 '18 at 6:51

And do you see `@angular/elements` installed inside node_modules folder? If not you have to install that `npm install @angular/elements` —

You have probably not installed `@angular/elements` . Please install it.

Run `npm install @angular/elements`
